

KS3 Computing Curriculum Map (Year A/B/C)

Commencing: September 2025

Assessment and Progress						
Assessment in Computing is mainly formative, using observation, questioning and practical tasks to check pupils' understanding. Progress is demonstrated through the development of computing knowledge, problem-solving skills and the ability to apply digital skills confidently. Students' Digital Skills are also assessed using Century, providing ongoing insight into understanding, progress and next steps.						
	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year A / Core 1	Introduction Online safety	Using databases Using software - Word	Using Word Formatting text	Four Sum Functions Equations & PowerPoint	Programming Scratch Part I	Programming Scratch Part II
Year B / Core 2	Use of Symbols Encode Methods of Communication	Mobile Computing Creating Symbols	Development for the Web	Animations	Programming Python I	Programming Python II
Year C / Core 3	Animations	Data Science	Formatting Documents Cyber Security	Representations- Going Audiovisual	Python- Sequences of Data	Physical Computing Programming
